

WE OPEN DOORS FOR YOU

### FARMER CENTRED

We put the farmer first in the design and development of the GATE-ID software. No mumbo-jumbo or geeky techy stuff.

### AFFORDABLE

Our software is big on functions and features but small on price. Whether you are a lifestyle farmer or a serious farmer in the primary industry, the price won't dent your wallet.

### KIWI MADE

GATE-ID is made by number 8 wire, down to earth Kiwi software developers. It was built from the ground up for NZ farmers.

### TRY BEFORE YOU BUY

We offer you a fully functional FREE Trial Version of our GATE-ID Software because we want you to be the judge.

# GATE-ID

## GOSHEN ANIMAL TRACKING ELECTRONIC – ID SYSTEM

*Scan – Record – Track – Display – Modify – Upload*

*NAIT-Ready*

# GATE-ID

*Flexible solution for your farming needs*

## EASY TO USE

Simple to install and use.  
Platform based on standard Windows PC and Microsoft Office Software.  
Works with RFID Readers and Scanners.

## CUSTOMISABLE

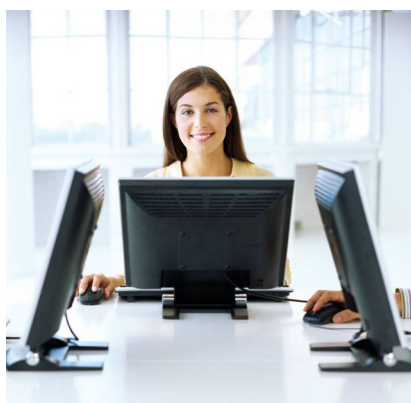

Display format and other functions are customisable to match user's preferences.  
Read and Write to Excel spreadsheets.  
Enables manual, bulk or automatic entry of RFID Tags to Excel spreadsheets.  
Allows Bluetooth or USB connection to RFID Tag Readers.  
Set up and upload animal records to NAIT System.

## SYSTEM REQUIREMENTS

- Windows 7 or higher
- MS .Net Framework
- MS Excel
- Bluetooth or USB
- RFID Scanner

## Technology at your finger tips

If you can use a drench gun, then GATE-ID is the solution for identifying your animals and tracking them from birth to sale or slaughter.

GATE-ID uses a standard Desktop PC or Laptop and the ubiquitous Excel Spreadsheet to record and retrieve the animal EID and related data.

All it needs is a column name called **EID** on your selected spreadsheet. You can have whatever data you like on that spreadsheet.

GATE-ID integrates with your RFID Reader/Scanner to read your animal tag and receive the data wirelessly via Bluetooth and record it on your Excel sheet. Every EID Tag that is read can also be automatically matched with existing EID data and instantly displayed on your computer screen or any other display device.

How you wish to see or display the data is fully in your control. Unlike many other competitive products, GATE-ID allows you to customise the front-end to suit your preference. No need to be stuck with "what you see is what you get software".

GATE-ID is NAIT-Ready and allows you to manually or automatically upload and update your EID data on the NAIT system. No more compliance worries or fines.

GATE-ID is simple to learn and use; and you don't have to pay thousands to buy it. We offer you a fully functional **FREE Trial Version** of GATE-ID to try before you buy.

## GATE-ID ON THE FARM

GATE-ID gives you the freedom to adapt it for your farming business:

- Animal Identification & Tracking
- NAIT Compliance
- STUD Management & Auctions
- Integration with other RFID Devices
- Pet Identification & Veterinary Applications

### Non-Farm Application

- Event management (RFID wristbands)
- Kindergarten/Children ID/Tracking
- Car Racing (Tracking vehicles)
- Wherever RFID tags or inserts are used

## SALES & PARTNERSHIP OPPORTUNITIES

If you are in the farming service and supplies industry or in the Information Technology sector, we welcome sales and distribution partnerships.
